<TEXT>I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I keep my regular phone system but use a phone card because it is much cheaper. My son's live 5 minutes away but they are a long distance call. I make less than \$5.00 in calls monthly but my bill is usually at least \$30.00 because of the taxes on phones - everyone gets a bite. I do not need more taxes on calls.

Joan Iverson - address attached

Sincerely,

Joan Iverson
